Hi John:

Here please find the new proposals from WHO in response to the issues you raised during our discussion last week.

In addition, I would like to inform you that regarding all money goes to WHO personnel. It is absolutely normal as the relationship between EPA and WHO requires such approach.

Here is the explanation I received from David Kelley:

## Ex. 5 - Deliberative Process

# Ex. 5 - Deliberative Process

Thank you very much

Abdel

Dear Abdel,

Thank you for your feedback on the proposals. We have added in some more details and some points of clarification in the attached documents.

The reports from previous Network meetings cited in the proposals (where the Network activities were identified) are attached.

I have also attached the outline programme for the 2017 Network meeting, which is still at the early draft stage because the programme will be informed by a survey of Network participants

which is currently underway.

I am happy to discuss these on the phone if anything is unclear.

Best regards

Richard
